

FOR IMMEDIATE RELEASE

ON WINGS OF EAGLES SELECTS JOURNEYS AVIATION FLIGHT ACADEMY

BROOMFIELD, CO – March 10, 2009 – In a joint statement, the On Wings of Eagles Foundation and Journeys Aviation Flight Academy today announced that the foundation has selected Journeys Aviation Flight Academy to provide comprehensive flight training to its cadets. After a formal and competitive proposal process in which numerous professional flight training academies were evaluated, the foundation selected Journeys Aviation Flight Academy, as one of the top three Academies to partner with the Foundation. Journeys will provide On Wings of Eagles Foundation cadets ab-initio flight training from Private Pilot through Commercial Pilot and Flight Instructor certification.

The On Wings of Eagles Foundation’s mission is to introduce, inspire, and motivate young adults to seek a life of excellence through self-discipline and character building principles, while pursuing a career in commercial or military aviation. The Foundation provides aviation scholarships for at-risk and under-privileged youth. Its cadets are selected from among the top graduates of the National Guard Youth Challenge Program – the most successful youth program in the United States.

“Because aviation training is so critical to our mission, it was important that we conduct a comprehensive evaluation of flight academies,” said Bruce D. (Bud) Oaster, Chairman and CEO of the On Wings of Eagles Foundation. “We were very impressed with Journeys Aviation Flight Academy. Its team, facilities, business management, and vision of professional flight training were key factors in our decision.”

Journeys Aviation Flight Academy’s comprehensive 12-month program will provide housing, transportation, career counseling, and aviation training for each cadet class. The Professional Pilot Program provides the Private Pilot Certificate, Instrument Rating, Commercial Pilot Certificate with Multi-Engine Rating, and the Airline Transport Pilot written examination. The On Wings of Eagles cadets will also receive Flight Instructor (CFI) and Flight Instructor Instrument (CFII) certificates.

“We are extremely pleased to have been selected to support the foundation’s critical mission,” said Cody Sutherland, President of Journeys Aviation Flight Academy. “The On Wings of Eagles’ team is comprised of renowned aviation training experts and very experienced professional pilots and we are excited to begin our partnership.”

About Journeys Aviation Flight Academy

Journeys Aviation Flight Academy provides accelerated flight training programs to cadets pursuing professional pilot careers. Leveraging six years of successful flight training experience,

excellent flying locations and facilities, and outstanding business management, the academy provides comprehensive flight training to professional pilot candidates. Journeys Aviation Flight Academy operates from two Denver area locations – Rocky Mountain Metro Airport (KBJC) in Broomfield, and Boulder Municipal Airport (KBDU). About On Wings of Eagles Foundation

The On Wings of Eagles Foundation is a 501 (c)3 nonprofit corporation. Its mission is to give a second chance to High School drop-outs who deserve a second chance at a good life. In concert with their partner the National Guard Youth Foundation, they have forged a three and a half year program that produces outstanding young aviation professionals with strong character and leadership skills. The Foundation further executes its mission through its speakers' bureau and aerobatic performances with the Red Eagle Air Sports aerobatic team. For more information, visit www.onwingsofeagles.org.
